

A B O U T

Always curious, with great will to learn and to go through new experiences that can show me how to get into the work market. I have 26 years old.

My common ground is Web Development, API's and Web Services but I do enjoy some Designing as well.

Rugby enthusiast and federated athlete for 10 years, still counting. I practised Karate in my early days for about 8 years. I do my best to apply the values that sports passed on to me into my academic/professional life, having the humility, teamwork, respect, discipline and resilience as key references.

Skills

Languages

Portuguese

English

Certification

I obtained a certificate in a Python online course that lasted 40 hours, with the approval of 93%

Experience

Summer Internship – Bosch (2019)

While taking my bachelor's degree at the University, I had three incredible experiences (each one for 2 months) of close contact with the Bosch Car Multimedia situated in Braga. The last one, in 2019, I was integrated in the department which gives IT support and some security support also.

Summer Internship – Bosch (2018)

This one was the most enjoyable of all three Internships. I was entrusted to develop a Business Intelligence tool to improve the Information System of one specific department. During this time, I shared the office with an experienced and talented team which helped me to grow a lot.

Summer Internship – Bosch (2017)

This first experience was really exciting. I had the opportunity to work with a team in the metrology laboratory of Bosch Car Multimedia Portugal. This was greatly reinvigorating since was my first contact with a big company from the inside.

Education

Master's degree (2020 –)

In the beginning of this academic year, I enrolled for my master's degree in the same area as my bachelor's in the same University.

Bachelor's Degree (2019/2020)

In the academic year of 19/20 I graduated with bachelor's degree for Information Systems Management I n University of Minho.
